LIFE IS BETTER WITH KAUFMANN

A scenic landscape featuring two dark-colored folding chairs with mesh backs and armrests, positioned on a rocky, uneven ground. A small white folding table sits between the chairs, holding a lantern and a cup. Another lantern is on the ground in front of the right chair. The background shows a vast, hilly landscape under a cloudy sky. The entire scene is framed by a thick green border.

POTJIE Q&A

How do I prepare my new potjie for cooking?

- To prepare for cooking the following steps are recommended:
- Wash out thoroughly with boiling water and dry.
- Coat the inside with cooking oil (or vegetable fat) and heat until the pot begins to smoke.
- When cool enough, using a paper towel, wipe inside clean. Repeat until towel wipes clean.
- The potjie pot is now ready for use.
- The more you use it the better it becomes.

How do I store my potjie pot when not in use?

After each use, wash the potjie pot and dry over heat source to remove excess moisture. Coat the inside with cooking oil or Spray and Cook. Store your potjie with the lid off and absorbent paper inside.

What is oil cured?

Our traditional range of potjies are oil cured which means they have no coating other than a protective layer of vegetable oil to prevent rusting and to help with curing during storage.
