

TECHNICAL DATA SHEET

Product Name: PowerBond Glow in Dark Tape

Adhesive Type: Permanent Solvent Acrylic

Thickness: 0.3 mm

Luminance: 120-150 mcd/m²

Temperature Range: -20°C to +70°C

Peel Adhesion: 10 N/25mm

Tensile Strength: 40 N/25mm

Application: Indoor and Outdoor Use

Storage: Store in a dry, cool place away from direct sunlight and heat sources

Installation Instructions:

1. Clean the surface thoroughly with alcohol or cleaning solution
2. Ensure the surface is dry and free of any debris or dust
3. Cut the tape to the desired length and shape
4. Remove the backing liner to expose the adhesive
5. Apply the tape to the surface, pressing firmly to ensure good adhesion
6. Allow the tape to charge in a well-lit area for 30 minutes or more
7. Enjoy the luminous glow for up to 4-10 hours in darkness

Note: Avoid applying the tape to uneven or textured surfaces as this may affect adhesion. It is recommended to test the tape on a small area before full installation.
