Product Name: PowerBond Industrial Anti-Slip Grit Tape With Glow Stripe

Features:

- **Colour:** Black/Luminescent
- **Material:** PVC/PET/PEVA - Aggressive 60-Grit Surface
- **Adhesive:** High-Performance Pressure-Sensitive Acrylic Adhesive
- **Temperature Resistance:** 23±2°C, humidity 65±5%
- **Size:** 50MM X 3M

Applications:

- Suitable for all smooth surfaces, stairs, ramps, entrances, and emergency exits.
- Indoor/Outdoor

Highlights:

- Visible Glow for up to 8 hours
- Maximizes safety in low-light areas
- Chemical and oil resistant
- Non-radioactive abrasive texture provides a safe, anti-slip surface for stairs
- Easily affixes to surfaces with an excellent Peel & Stick adhesive backing, facilitating low-cost and easy installation
- Designed for high-traffic areas, ensuring durability and longevity

Product Description:

PowerBond Anti-Slip Industrial Grit Tape is an ultra-durable and reliable solution for combating slips, trips, and falls in high-traffic areas. Engineered with the highest quality materials, premium pigments, and solvent acrylic glue layer, it guarantees superior traction and safety.

The tape features an aggressive 60-grit surface crafted from PET film coated with carborundum grit, ensuring a non-radioactive abrasive texture. It includes a luminescent middle strip that absorbs and stores energy from natural or artificial light, providing up to 8 hours of glow. This feature ensures immediate visibility during blackouts or emergencies, making it ideal for fire escapes, stairs, ramps, entrances, and emergency exits.

Designed to maximize visibility and safety in dark situations, this anti-slip tape reduces the risk of slips, trips, and falls. Its chemical and oil resistance ensures maximum durability even in harsh conditions, while its non-radioactive abrasive texture provides a safe, anti-slip surface for stairs.

Installation:

PowerBond Anti-Slip Industrial Grit Tape easily affixes to surfaces with its excellent Peel & Stick adhesive backing, facilitating low-cost and easy installation. It is suitable for all smooth surfaces and can be installed in a few simple steps:

1. Clean the surface where you are installing the tape
2. Measure the area and cut the tape to size
3. Peel the backing off the tape
4. Place the tape onto the surface, starting at one end and pressing down firmly
5. Smooth out any bubbles with a firm motion to ensure good adhesion

Storage Guidelines:

Store this product in a cool, dry place away from direct sunlight and moisture.

Disclaimer:

This product is designed to offer safety and traction solutions but is not a replacement for good safety practices. PowerBond is not responsible for slip and fall accidents, damage, or injuries that occur due to incorrect installation, use, or misuse of this product.
